Ski Shackle Kits

CONTINUE USING DEHAVILLAND WHEEL SKIS

The AeroMod p/n ACI-3048-01-1 Ski Shackles are designed to work together with Harbour Air Heavy Duty Lift Struts p/n D3081 (Canadian STC SA08-47, FAA STC SA02711NY) and permit the continued operation of the DHC-3 Otter on DeHavilland C3-US-100 wheel skis.

When Harbour Air Heavy Duty Lift Struts are installed on the aircraft, the original DeHavilland aft ski shackles will no longer fit on the lower strut mount. **AeroMod p/n ACI-3048-01-1 Ski Shackles are wider than the original DeHavilland shackles, will fit the Heavy Duty Lift Struts and permit continued operation on the DeHavilland wheel skis.**

The shackle kit includes the STC paperwork (Canadian STC SA20-13, FAA STC SA001391B), two p/n ACI-3048-01-1 ski shackles, longer strut attach bolts, as well as additional hardware - everything needed to continue operating your wheel skis when us

Pricing

Each kit: Approval, 2 ski shackles, strut attach bolts, additional hardware

4 or less kits - \$2,000 USD each
5 or more kits - \$1,800 USD each
